ABOUT US

Congo Rare Minerals is a dynamic and forward-thinking company specializing in the sourcing, trading, supplying and delivering of a diverse range of mineral commodities. With a commitment to quality and reliability, we serve clients across various industries worldwide.

MISSION

To accomplish our Vision and Objective by continuous self improvement and training to develop our employees, who are our greatest assets, to international standards in all facets of mining including safety, environmental, engineering, mechanical and productivity.

VISION

To be a leading global supplier of minerals commodities, recognized for our integrity, innovative solutions and commitment to excellence.

CORE VALUES

To provide specialist mining and construction services to the mining industry throughout Worldwide.

WHY CHOOSE US

We are a locally owned company and can attend to any situation within the shortest possible time frame. Our team of technicians are professionally trained with vast experience and skill to get the job done.

We source our Materials and equipment's are superior manufacturing standards, and consistent quality control that will elevate Essence to the position of reliable and trustworthy business partner.

INTEGRITY

We conduct our business with honesty and transparency.

QUALITY

Our products meet the highest industry standards.

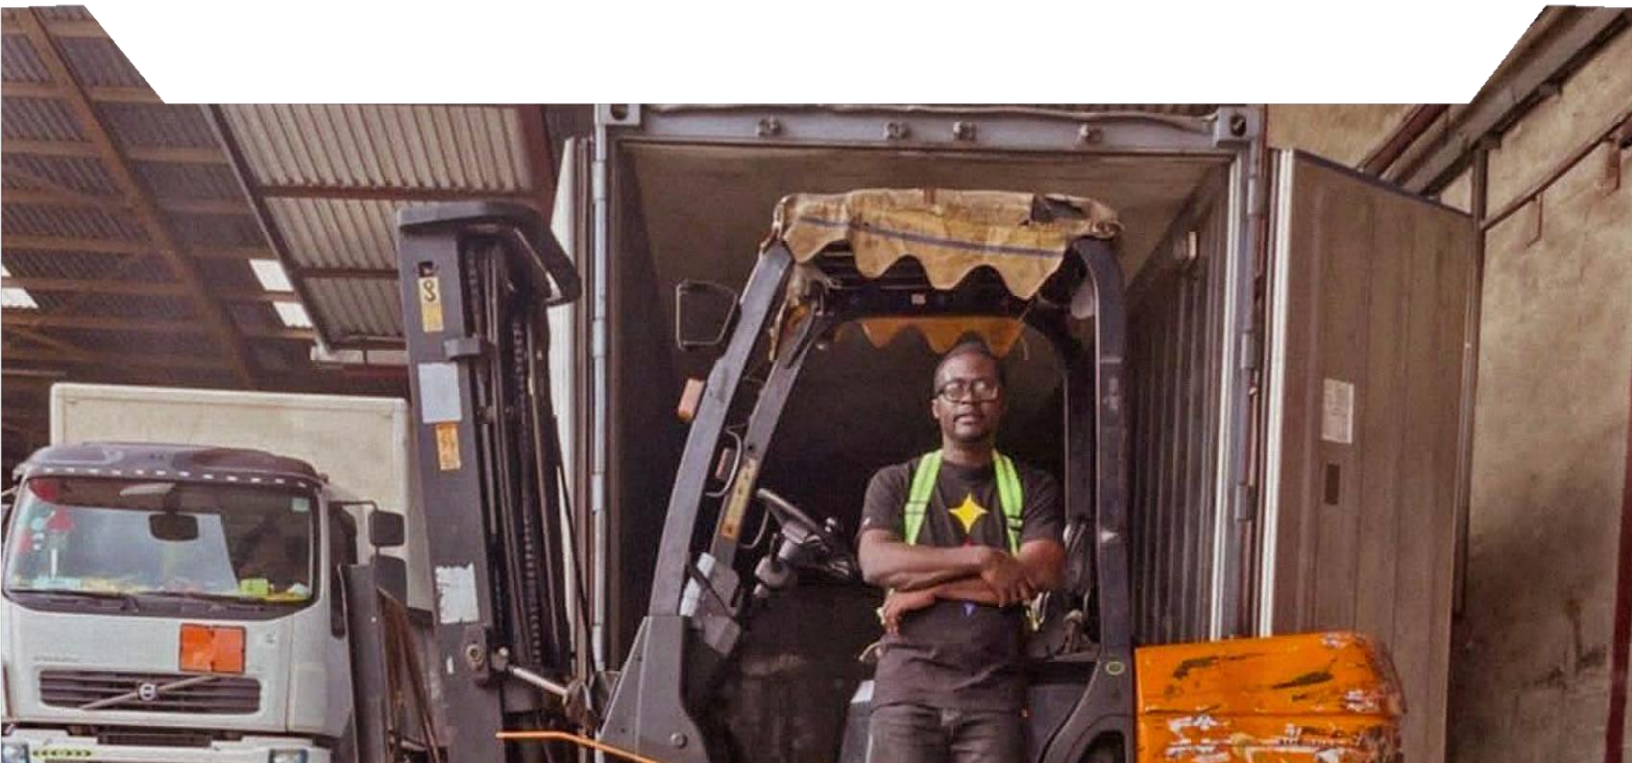

SUSTAINABILITY

We prioritize environmentally responsible practices in all operations.

CUSTOMER FOCUS

We are dedicated to understanding and meeting the needs of our clients.

- Fast and Flexible
- Service 100% customer satisfaction
- Transparent and Competitive pricing
- Years Professional Experience

OUR PRODUCTS AND SERVICES

We focus on the following strategic mineral commodities to drive sustainable growth, fuel innovation and meet the evolving needs of industries worldwide.

Through responsible sourcing, strategic partnerships and innovative solutions, we aim to unlock the full potential of these mineral commodities and contribute to a more sustainable future.

COPPER CATHODES

Our high-purity copper cathodes are engineered for optimal performance in electrical applications, including wire production, electronics and telecommunications.

With a minimum purity of 99.99%, our copper cathodes meet the stringent requirements of various manufacturing processes, ensuring reliable conductivity and durability.

We supply copper cathodes in various forms, including plates, sheets and rods, to cater to diverse customer needs.

COPPER CONCENTRATE

As a crucial intermediary product in copper extraction, our copper concentrate is highly sought after by smelters and refineries worldwide.

Our concentrate is rich in copper content, ensuring efficient processing and maximum metal recovery.

We source our copper concentrate from reputable mines and ensure strict quality control measures to meet the demanding standards of our customers.

COBALT CONCENTRATE

Sourced from trusted mining partners, our cobalt concentrate is a vital component in battery production and high-tech applications.

With its high cobalt content, our concentrate supports the growing demand for lithium-ion batteries, renewable energy systems and advanced electronics.

We prioritize responsible sourcing and adhere to stringent environmental and social standards.

GOLD

We mine and trade in both raw gold and refined bullion, catering to investment and industrial needs.

Our gold supply chain is transparent, ensuring conflict-free and responsibly sourced materials.

We offer various gold products, including bars, coins and nuggets, to meet diverse customer requirements.

DIAMONDS

Our diamond sourcing ensures quality gemstones for both industrial use and jewelry markets.

We partner with reputable mines and cutting-edge processing facilities to deliver diamonds with exceptional clarity, cut, and color.

Our diamond portfolio includes rough and polished stones, suitable for various applications, from drilling and cutting tools to luxury jewelry.

MANGANESE

Vital for steel production, our manganese products meet stringent quality standards, ensuring optimal alloy performance.

We supply manganese ore, alloy, and metal, catering to foundries, steel mills and manufacturing industries.

Our manganese products are characterized by high manganese content, low impurities and consistent quality.

TANTALITE

A key mineral for electronics, our tantalite supply supports the growing tech industry. We source high-grade tantalite from conflict-free zones, ensuring compliance with international regulations.

Our tantalite is used in capacitors, electronic components and other high-tech applications, where its unique properties enable efficient energy storage and filtering.

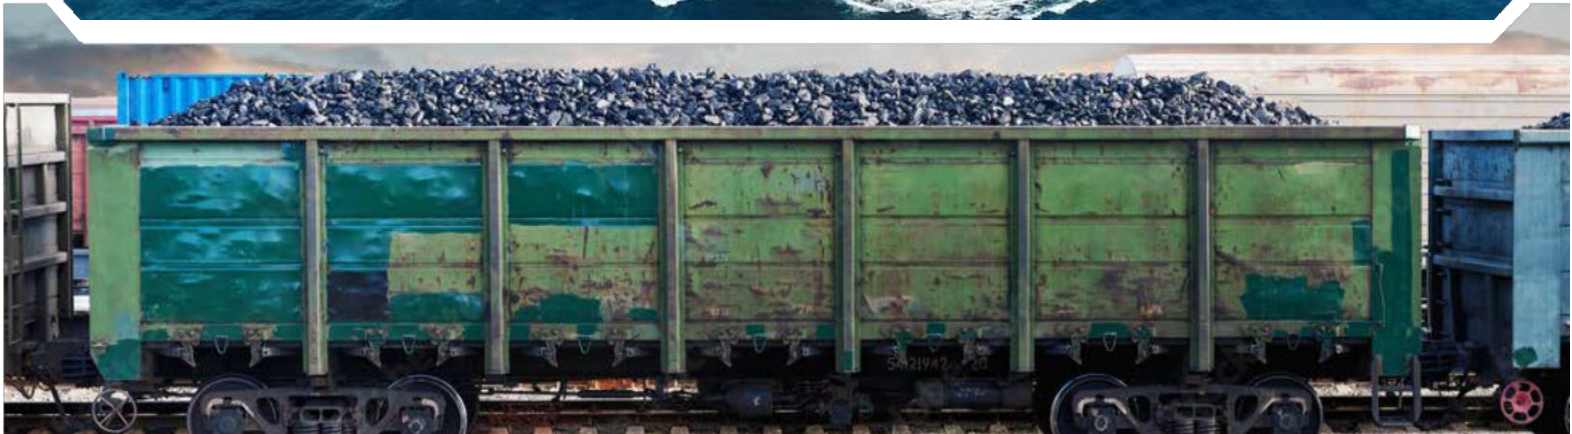

FREIGHT AND LOGISTICS OF COMMODITIES

We offer premier, customized end-to-end logistics solutions.

Our seamless services encompass transportation, documentation, warehousing, distribution and customs brokerage.

With global reach, technology and a commitment to exceptional customer service, we ensure smooth transportation, real-time tracking, and competitive pricing.

Trust us to deliver the best logistics experience tailored to your unique needs
